

We visited Miami University in Oxford on November 29, 2018 on a beautiful day!

Our seniors had the opportunity to get a firsthand view of the university.

We had a great admission presentation during which students asked their questions not only about this University in particular but also about college decision in general. It was informative and nicely set.

We were glad to hear that 96% of their graduates are employed immediately after graduation.

The weather was nice, so we had a nice tour on the beautiful campus of Miami University.

Our students were able to get a feel for the campus while walking around the quad, sitting in on a class and having a great lunch on campus dining hall.

We thank Miami University for hosting us.
